He said that informally, not a part of the City Council meeting, there is a lot of discussion surrounding the amphitheater and timing. He said that the Epcon development is moving very quickly. The City had a first reading on the infrastructure (road structure, sewer work). There are 22 units in the first phase where the infrastructure has been approved. FISCAL OFFICE

The Fiscal Officer presented the May 2019 Bank Reconciliation and End of Month Reports.
Mr. Olmstead inquired about the discrepancy in tax receipts for the 1st half of 2019. Mrs. Powell said that Franklin County said it was either people didn’t make pay their property taxes by the deadline or there were delinquencies. We won’t know until we get our 2nd half property tax distribution. He requested that the Fiscal Office go back to the Auditor’s office to request additional detail regarding the discrepancy.
Mr. Ferguson inquired about the 2020 tax budget and why our receipts are decreasing while our expenses are increasing. Mrs. Powell said the Township underestimates what our receivables will be and overestimates our expenditures. Because just like this year we received less property tax receipts than we expected. Mr. Olmstead said that the Township will use this to request inside millage. There was discussion concerning the tax budget receipts. Mrs. Powell said that we can’t show that we are getting inside millage receipts until we are approved to receive them.

Mr. Ferguson made a motion to pass Resolution No. 190619B1. Be it Resolved: To accept the attached 2020 Tax Budget and submit it to the Franklin County Auditor’s Office. Mr. Olmstead seconded the motion.

Mr. Ferguson asked if this is the software that we were looking at. Mr. Zappidelli said yes, Mrs. Powell was able to negotiate a lower cost for it which is a savings of over $5,000. He said we continued to work with the City of New Albany on their Munis software option and it is looking like a less likely solution. He said the cost of that is around $60,000-$65,000. There was a brief discussion concerning the software and implementation costs. Mr. Olmstead said they we have received good reviews of the software from Mifflin Township saying that it was easy to use.

Mr. Ferguson asked about the cost estimate table. Mrs. Powell explained that there are 4 different routes we can go but 2 different software packages. She said the Software Solutions VIP Fusion with a SQL Server is with a server in house that we have to manage. The Software Solutions software but hosted is that they host it on their server and they have data center redundancy. She said the Tyler Technologies is the same thing. It is the same software but one is an in house SQL Server and one is hosted.

Mrs. Powell explained the yearly costs for the different software and server options. Mr. Olmstead said you don’t want to manage your own SQL Server. Mrs. Powell agreed. She said there is only a $300 additional yearly cost to have them manage it.
Mr. Ferguson asked if Mr. Collins reviewed it. Mr. Collins said yes, he agrees with Mrs. Powell that it is a great solution. Mr. Ferguson asked Mr. Zappidelli if he was good with it also. Mr. Zappidelli said yes.

Mr. Ferguson made a motion to pass Resolution No. 190619B3. Be it resolved, to authorize and pay the amount of $39,700 to Software Solutions, 8534 Yankee Street, Suite B, Dayton, Ohio 45458 and to authorize the Fiscal Officer to accept and to sign off on the Software Licensing Agreements for the VIP Accounting Suite, implementation services, data
